## Edit Budgeteer

Project name VCS URL VSC user VSC password VSC online ☒Start date  End date  

Editing the project  
uses the project  
creation form.

Projects

Running jobs

Quality Profiles

Settings

## Configure the project

Select Analyzers ☒ CheckStyle  
☒ LoC

File patterns to include

src/main/java/\*\*/\*.java

File patterns to exclude

src/main/java/\*\*/\*.generated/

Modules

budgeteer-web-interface

Quality profile

Default profile

Cancel

Done

Clicking on "Done"  
will then start an  
analyzing job
